

**Anglia Battlefield Tours signs up with CorporatePay for its foreign currency needs**  
***Providing staff with cost-effective foreign currency expenses needn't be a battle***

Anglia Battlefield Tours, a leading provider of guided battlefield tours for schools, adults and the services, has recently shown that providing employees with foreign currency expenses need not be a battle by signing up for the CorporatePay Expense Card Prepaid MasterCard®.

CorporatePay, a specialist supplier of prepaid card services to the travel industry, will provide the Expense Cards to Anglia Battlefield Tours' guides. Anglia Battlefield Tours will load the cards with funds to cover guides' expenses on the tours, via the easy to use online system. The tour guides will be able to keep up to date with their balances online free of charge, or through a handy text service.

The cards are accepted anywhere the MasterCard Acceptance Mark is shown, so using them across Europe is no problem. They will save Anglia Battlefield Tours time and money, through reducing administration effort compared to cash dispersal, as well as through CorporatePay's favourable exchange rates. Anglia Battlefield Tours' Financial Director, Anita Chissel said "We are very excited about the benefits of using the CorporatePay Expense Card, which will allow us to distribute foreign currency to our staff working abroad more cheaply and efficiently, and as an additional bonus, we will save more money by avoiding credit card charges."

"We were delighted to work with Anglia Battlefield Tours to help them distribute foreign currency to their employees," said Myles Stephenson, CEO of CorporatePay, who are also behind the consumer My Travel Cash Prepaid MasterCard and several white-label currency cards in the travel market.

"The card is a very effective way for companies to provide staff with foreign currency, and can help companies reduce foreign currency costs in several ways; by avoiding high rates offered at airports, by purchasing currency in bulk at market leading exchange rates and by avoiding commissions. Greater transparency of costs is also achieved through single purchase rates rather than rates varying by transaction."

The CorporatePay Expense Card can transform the way companies manage expense payments, as it provides an unprecedented level of cost control combined with a convenient method of payment. For companies requiring a cost-effective and simple way of supplying foreign currency expenses, the CorporatePay Expense Card is ideal, and is available in British Pounds, US Dollars and Euros.

**CorporatePay Expense Card:**

The CorporatePay Expense Card is a practical solution to the issue of business expenses, and replaces cash advances, purchasing cards, per diem allowances and corporate credit and charge cards. Designed specifically to meet the demands of corporate expenses management, the market-leading prepaid solution delivers significant improvements in profitability by reducing the financial and operational burdens of administering business expenses. The online portal allows company administrators to dynamically allocate funds as required and to access balance and transaction data online, providing up-to-date intelligence and closer control over employee expenses.
